

Did you know you can access Wireless InnoVia via your cell phone?

To access Wireless InnoVia, you will need to have your cell phone or handheld device connected to the Internet. Once connected, open a web browser and type in the Wireless InnoVia web address **m.ntreisinnovia.net**

Do not use www. or http:// when typing in the web address. Type only m.ntreisinnovia.net

Wireless InnoVia works on Smart Phones, phones that run on a PDA operating system such as Windows Mobile, Palm, or BlackBerry. Phones using a web browser provided solely by your cellular service company may not be able to access Wireless InnoVia.

For more information visit Wireless InnoVia help via your PC at <http://www.getoffutt.com/Help/help3/wi30.htm>
